

Buerer MG 21 Infrared Massager

Infrared Massager

The Infrared Massager provides a soothing and relaxing vibration massage, designed to help relieve muscle tension and promote relaxation. With the added benefit of infrared heat, this massager allows you to customize your experience with 3 interchangeable attachments, offering versatile massage options to meet your needs.

Features

- Soothing and relaxing vibration massage: Helps reduce muscle stiffness and promotes overall relaxation through gentle vibrations.
- Infrared heat can be selected separately: Provides additional soothing warmth to further relax muscles and improve circulation.
- 3 interchangeable massage attachments: Includes 2 nub attachments and 1 brush attachment, allowing you to target different areas and customize your massage experience.
- 2 function levels: Choose between a vibration massage or a combination of vibration massage with infrared heat for an enhanced experience.
- Customizable massage experience: The interchangeable attachments and adjustable settings allow for a personalized massage to suit your preferences.
- Convenient and easy to use: Simple controls make it easy to switch between functions and enjoy a soothing massage at home or on the go.

Benefits

- Relieves muscle tension: Provides targeted relief for sore muscles and promotes relaxation throughout the body.
- Improves circulation: Infrared heat helps to enhance blood flow, aiding in faster recovery and muscle relaxation.
