

## ONYMED Blood and Infusion Warmer (OM-2030D)

Compact dual-channel fluid warmer with rapid heating, precise temperature control, and safety alarms—ideal for safe blood transfusions, infusions, and nutritional therapy in hospitals and emergency care.

### Features

- Application: Warmer for blood transfusion, infusion, enteral nutrition, parenteral nutrition
- Warmer: Channel Double channel
- Display: 5" Touch screen
- Temperature: 30–42°, in 0.1° increments
- Temperature accuracy:  $\pm 0.5^\circ$
- Warm time: < 3 mins from  $23 \pm 2^\circ$  to  $36^\circ$
- Alarms: Over temperature alarm, low temperature alarm, warm malfunction, low battery
- Additional features: Real-time temperature, automatic power switching, programmable fluid name and temperature range
- Wireless Management: Optional
- Power Supply, AC: 100–240 V, 50/60 Hz, =100 VA
- Battery: 18.5 V, rechargeable
- Battery Life: 5 hours for single channel, 2.5 hours for double channel
- Working Temperature: 0–40°
- Relative Humidity: 10–90%
- Atmospheric Pressure: 860–1060 hpa
- Size: 110(L)\*50(W)\*195(H) mm
- Weight: 0.67 kg
- Safety Classification: Class II, type CF
- Fluid Ingress Protection: IP43
