

Instapro Tennis Elbow Support (F-05)- Experience Comfort & Relief form Sports and Work Pain

Instaproglobal Shoulder Support Neoprene protects and supports the injured or ailing shoulder joint. It keeps the shoulder joint warm and flexible and aids in quick healing. It is designed anatomically to apply uniform and controlled compression around the 'ball' of the shoulder. It is made of superior quality Neoprene fabric with nylon lining. The design allows for quick adjustment, controlled pressure, easy application, and removal

Attributes

- **FOUR WAY STRETCHABILITY**
Neoprene bonded nylon fabric offers more compression and comfort along with better grip and durability.
- **BETTER HEAT RETENTION**
Neoprene bonded nylon fabric retains more body heat aiding in faster healing and pain relief.
- **3? WIDE STRETCHABLE SHOULDER BAND**
Stretchable shoulder bands allow the product to be available in a universal size and easy to wear.
- **ANATOMICAL SHAPE**
Ensures good grip around the shoulder, perfect fitting and better immobilization. This allows the product to be worn under clothing inconspicuously.
