

TYNOR I-46 BACK REST FULL

The Tynor Back Rest Full provides lightweight, portable support that keeps the spine in a neutral posture. It's not worn but is placed on chairs, car seats, beds, or even the floor and made of high-density polyurethane foam lined with a soft fabric. The design aligns with a human's back shape and maintains the spine's natural curve.

Attributes

- ANATOMIC DESIGN
- The anatomic design maintains the natural low back curve and relieves the anterior pressure on the vertebrae. Side supports hold the body and enhance comfort.
- PU FOAM DENSITY
- PU foam with 50 density Kg/m³ has high resilience and long functional life with better-cushioning properties.
- SMART COVER
- Removable and washable, the smart cover provides a soft feel and plush looks and gels well with the car or office interiors.
- AESTHETICS
- The product has plush looks.
