

TYNOR WEIGHT CUFF

Tynor Weight Cuff is designed for a complete physiotherapy program. It has a long and double safety hook and loop closure for secure fit. Ideal for passive and active exercise programs for paraplegics, invalids, and gym users.

Attributes

- **LOW FRICTION, HIGH DENSITY STEEL BALLS**
Reduces volume and adds convenience.
- **MADE FROM STRONG SPANDEX FABRIC**
Durable and comfortable for prolonged use.
- **AERODYNAMIC SHAPE**
Ensures good grip and ease of movement during exercise.
- **REVERSE BUCKLE MECHANISM**
Allows easy application and removal of the cuff.
