

VISSCO COCK-UP SPLINT UNIVERSAL – PC. NO 0641

Cock-up splint is used to support and stabilize the wrist. Made with malleable material which conforms to the shape of the wrist. Provides compression and helps to rehabilitate. Has adjustable straps that help for a comfortable fit and does not hamper the thumb and finger movements. Designed with skin-friendly and breathable material. Universal in size which fits for all.

Attributes

- **SUPPORTS AND STABILIZES THE WRIST**
Malleable structure conforms to wrist shape for better support and compression.
- **ADJUSTABLE STRAPS**
Helps secure a comfortable fit without affecting finger movement.
- **SKIN FRIENDLY MATERIAL**
Made with breathable and soft material for all-day comfort.
- **UNIVERSAL SIZE**
Designed to fit all wrist sizes.
- **Directions for Use**
Wrap the support around the wrist with the thumb placed in the opening provided. Ensure that the splint is placed on the palmar side of the wrist. Pull the straps to lock the support to a comfortable and secure fit.

- **Safety Information**
Hand wash with mild detergent and water. Dry in shade on a flat surface. Do not dry clean. Do not iron or bleach.
