

## **VISSCO TENNIS ELBOW SUPPORT, PAIN RELIEF BELT UNIVERSAL – PC. NO. 2617**

ViSSco Tennis Elbow Support is used for acute elbow pain, elbow sprain, strain, and conditions like lateral and medial epicondylitis. Provides firm support and compression to the strained muscles of the elbow and maintains the wrist in functional position while allowing free movement of fingers and thumb.

### **Attributes**

- **PAIN RELIEF**  
Helps relieve pain by offloading the muscles of forearm and elbow.
- **COMPRESSION SUPPORT**  
Provides compression to the strained muscles of the elbow and support to the wrist.
- **LONG LIFE MATERIAL**  
Made with a special process for long life with anti-bacterial properties.
- **DIRECTIONS FOR USE**  
Insert the arm and position the softer ribbed portion below the elbow.
- **SAFETY INFORMATION**  
Keep away from oil, fire, and children.
